Product offering

Inner Design

Inner Design collaborates with innovative minds in the creation of furniture that encourages moments of pause and rejuvenation. Our mission is to elevate spaces through contemporary furniture, benefiting the well-being of all.

- Over the past years, an increasing number of individuals have been prioritizing their well-being and inner peace.
- We are currently partnering exclusively with Belgian-based manufacturing companies who also share our commitment to quality and excellence in every aspect of their work.
- Each piece is brought to life with the boldness to innovate and a strong commitment to integrity. We strive to elevate individual well-being in various environments, from offices to public lounges, through tranquility, design, and comfort.

Meet Shanti

Our first product, Shanti, is a statement piece for modern spaces, infusing peace and aesthetics into any environment, while offering a myriad of experiences, from introspection and meditation to a momentary escape.

Shanti's design philosophy promotes a deeper connection with oneself and nature, ensuring a balance between functionality, tranquility, and well-being.

A STATEMENT PIECE FOR MODERN SPACES

Infusing peace and aesthetics into any environment, while offering a myriad of experiences, from introspection and meditation to a momentary escape. Shanti embodies the essence of a personal escape, a cocoon where time slows, and the soul can breathe. It's where every moment spent is a step towards a calmer, more centered self.

“Within you is a stillness
and a sanctuary to which
you can retreat at any time
and be yourself.”

— Hermann Hesse

Designers

Designed by Joachim Froment (Futurewave)
Inspired by Rajvi Bhogaita

Sustainability

Wood structure & Assembly | Made in Belgium
Upholstery | Fabric made from 100% recycled polypropylene in the Netherlands

Measurements

Weight: 30kg
Dimensions: H: 156cm | D: 137cm | W: 128cm

Materials

Fabric: 100% recycled polypropylene | Luxurious linen and woolen look | High abrasion resistance Grade 5
Color fastness to light | Grade 5 color fastness to rubbing

Different fabric colours available upon request.

Spaces

Offices / Co-working spaces

Shanti addresses the need for mental wellness in the workplace by providing a secluded space for employees to rejuvenate, leading to increased productivity and reduced stress.

Hotels

Shanti solves the issue of impersonal guest experiences by offering a private, tranquil space that elevates the standard of luxury in guest rooms, a hotel lobby or lounge areas.

Leisure centres

Shanti provides a solution for spaces such as spas and members club gyms seeking to enhance the calm and relaxation of their clientele, supporting wellness routines with a designated area for rest.

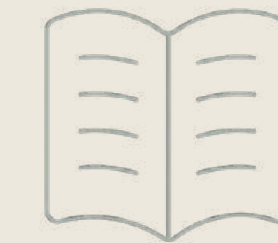

VIP Lounges

Our chair offers a solution for the discomfort and lack of privacy often experienced, even in VIP airport lounges, providing a secluded haven for travellers.

Private clinics

It addresses the need for improved patient comfort and stress reduction in clinical settings, contributing to a more positive healthcare experience and environment.

Libraries

Shanti acts as a sought-after spot for those seeking a peaceful corner to read, reflect, or take a mental break, thus supporting the library's mission to serve as a sanctuary of knowledge and tranquility.

Practical Information

Price

Quotes will be tailored to each request.

Assembly

Inner Design guarantees to have the chair fully assembled or will provide a technician upon receiving the order.

Deposit

A deposit will be required upon signing the contract, before starting the production.

Shipping

Delivering worldwide from Belgium.
Shipping costs not included.
Quote will differ based on country and quantities.

Duties & Taxes

Inner Design is not liable for any duties and taxes resulting from exporting outside of European Economic Area (EEA).

Lead times

10 to 12 weeks.

Timeline

November 2022

Inner Design's journey began with a spark of inspiration in the offices of Hermès in New York, where Quentin discovered the concept of a meditation pod. This moment of discovery set him on a path of innovation and heritage, leading him to India.

February 2023

Upon his return, Quentin's online search for similar concepts led him to London based industrial Designer, Rajvi Bhogaita, whose initial design, Shanti, resonated with his vision.

March 2023

Quentin's childhood friend, Diego, quickly joined the venture. Diego is based in London and has a commercial background for a design-led hospitality brand.

April 2023

From the early stages, they partnered with the Belgian product design company, Futurewave, to refine and adapt "Shanti", first imagined by Rajvi.

September 2023 - May 2024

The prototype development was a thoughtful process, blending the co-founder's visions with Futurewave's expertise, leading to a prototype that is not only design and functional, but also a catalyst for well-being.
