BRUSSELS DESIGN SEPTEMBER
17.09 → 03.10.2025

BRUSSELS, A LANDSCAPE FOR DESIGN
For its 19th edition, Brussels Design September reveals a city where collaboration and innovation flourish. From 17 September to 3 October 2025, around 100 exhibitions, installations, open studios, and collaborative projects will transform Brussels into a living laboratory of contemporary design.
At its heart lies a community of visionary and generous creators designers who believe in sharing, supporting, and elevating one another. Brussels has become a place where institutions and independent spaces, engaged retailers and educational venues, established figures and emerging talents interconnect. Together, they create fertile ground for design as a cultural, critical, and societal force.

THE ART OF
THE TABLE

WHEN DESIGN MEETS GASTRONOMY
Art of the table celebrates the intimate relationship between design and culinary culture, exploring how creativity enhances our dining experiences. From furniture to ceramics, glassware to textiles, lighting to floral arrangements, and innovative food design, this selection reveals the artistry behind exceptional table settings.
Discover a dedicated food design exhibition at Prague House alongside inspiring table settings in vintage galleries throughout the city. Contemporary designers reimagine our relationship with food and conviviality through thoughtful objects that elevate every meal into a memorable experience. This celebration showcases the craftsmanship and innovation of creators who transform the simple act of dining into an art form.

LECTURES
VOICES SHAPING THE DESIGN DISCOURSE
Brussels Design September 2025 presents a rich program of lectures and conferences featuring leading voices from architecture, design, and creative industries. Highlights include "Bohemian Rhapsody in Steel, Glass and Concrete" by Olgoj Chorchoj Studio at Prague House, and Mario Trimarchi's "Ten Types of Black" at the Italian Cultural Institute.
The acclaimed series "Celles qui font le design" by Maak & Transmettre returns with four themed evenings: Media, Space, Color, and Light celebrating women and non-binary voices in design. Additional talks explore curatorial practices, the commons in open-source design, and the intersection of creativity with social transformation. Each conference offers insights into contemporary design thinking and practice.

TRANS-FORMATIONS
@MAD BRUSSELS
LA CAMBRE ALUMNI: CROSSING BOUNDARIES
Trans-formations celebrates the centenary approach of La Cambre school (founded 1927) through an ambitious exhibition showcasing 15 projects by accomplished alumni from industrial design, textile design, interior architecture, and accessories. This groundbreaking show explores transversality as a driving force of contemporary creativity.
From design-meets-astrophysics to architecture crossing lingerie, the exhibition reveals how cross-disciplinary collaborations generate unexpected innovations. Featuring established professionals who transcend traditional boundaries, Trans-formations demonstrates how hybrid approaches create meaningful, innovative solutions for our complex world.

MARIO TRIMARCHI
RADICAL LANDSCAPES - GUEST OF HONOR
Mario Trimarchi, the Compasso d'Oro-winning designer and architect, presents his first solo exhibition in Brussels. Radical Landscapes showcases a selection of his most recent works, including unique objects and drawings that explore the poetic friction between the natural and the conceived.
Through six distinct collections—from BARRICADES' fragile architectural fragments to CLOSE TO THE EDGE's precarious balance of stone and glass, Trimarchi invites us to discover delicate poetic landscapes captured in sophisticated assemblages of raw materials. His work speaks to life's unattainable balance: warmth and cold, instability and solidity, lightness and weight. Former Olivetti Design Studio member and founder of Fragile agency, Trimarchi transforms everyday objects into poetry.
