# BRUSSELS DESIGN SEPTEMBER 12 → 30.09.2023

In 2023, Brussels is celebrating Art Nouveau. Brussels Design September has established this as the cornerstone of its program, delving not only into the stylistic heritage of this movement but also highlighting the resurgence of decorative arts, crafts, collaborative design, and innovative materials. With over 100 venues and the participation of more than 300 designers, come and explore an astute and inventive Brussels that will captivate you with its unconventional and pleasantly surprising approach. This design gathering showcases a city overflowing with ingenuity, infusing new life into its Art Nouveau heritage and propelling it into the realms of contemporary creativity.

## MIX BRUSSELS

**MORE INFO → MIX.BRUSSELS**

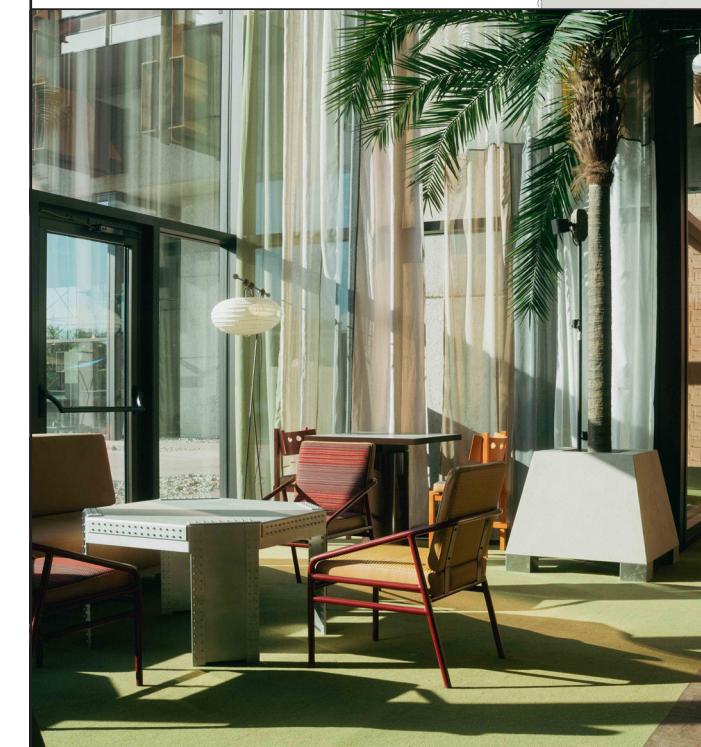

Bd du Souverain 25/1,  
1170 Watermael-Boitsfort

Opened in June 2023, "The Mix" resides in bustling southern Brussels across six floors of the prestigious Royal Belgian structure. Its exquisite architecture and terraces, offering a 360-degree panorama of the Sonian Forest, are standout features.

Atelier Lionel Jadot, known for inventive design, teamed up with Zaventem Ateliers' creative artisans and designers for the interior. They employed quality materials, infusing creativity, resulting in a distinct and immersive encounter. This design epitomizes innovation and meticulousness, paying homage to the functionalist legacy of the iconic Brussels edifice.

This comprehensive and engaged approach resonates with Art Nouveau traditions. The interior complements the preserved architecture while highlighting contributions from around 50 designers and artisans. With almost 95% of Collectible Design sourced locally, "The Mix" becomes a tribute to Belgian skill and craftsmanship.

This dedication to collaborative design amplifies the establishment's uniqueness and depth, offering visitors a chance to engage not only with finished products but also with the stories, motivations, and creative journeys of the local artists and designers involved. In this way, "The Mix" is a living embodiment of Belgian design excellence, a space where the fusion of local skills and collaborative spirit converge to create an unforgettable experience.

## FOR THE NOW

FOR THE NOW is a design platform where exchange is core.  
FOR THE NOW is fluid, represents the present and above all what is accurate in it.  
It shows a reflection of what society looks in this very moment through design.

This curated presentation and sales platform for both established and emerging Belgium based designers, working across design disciplines and with a variety of mediums. It is a unique opportunity to discover new design, meet upcoming talents, and to acquire authentic design pieces.

FOR THE NOW will change along with our society.  
FOR THE NOW will never be the same.

# COMMERCE DESIGN AWARDS

## BRUSSELS FINEST ADDRESSES

For over a decade, the Commerce Design Awards have aimed to discover and honour remarkable, imaginative and innovative retail spaces across the city of Brussels. This year, 19 unique spaces were visited by an external jury. The jury gave its verdict and rewarded 11 commerces. Now it's YOUR turn to vote for the Public Choice! The winner of the Public Choice will be announced at the ceremony on 26 September and on the Instagram account @commercedesignawards.

# RENEWAL

DESIGNING FOR CONSCIOUS LIFESTYLES

EXHIBITION FROM  
7/09 → 10/09  
14/09 → 17/09  
RUE DE LIGNE 8 - B-1000

Examining how design solutions can support and inspire conscious living, fostering mindfulness practices, a deeper connection with nature, and sustainable habits. Exploring the role of conscious awareness in transitioning from a linear economic model to a circular economy, emphasizing resource efficiency and waste reduction.

In the ever-evolving journey of material exploration, "Renewal" bridges the gap between innovative ideas and practical implementation. This exhibition aims to not only showcase sustainable production processes but also introduce people to the transformative use of waste, offcuts, biobased, and recycled materials in the creation of objects.

The exhibition promotes a journey where materials serve as the foundation for designing objects with intention and purpose. Exploring the boundless potential of waste, offcuts, biobased, and recycled materials, and creating a future where respect for materials and durable design are at the forefront of conscious living.
